

FINDING LEGAL AND BUSINESS FORMS

“Each state, indeed each court, may prefer a certain set of forms. This is a Tinker Bell phenomenon. One wants to use the set that everyone believes in”.

Robert C. Berring & Elizabeth A. Edinger, *Finding the Law* 323
(12d ed. 2005)

Forms are classified as either *procedural* or *transactional*. Procedural forms, also called pleadings, are forms that are filed with a court such as complaints, answers, and interrogatories. Transactional forms, also called instruments, are forms that are used between two parties. Examples are contracts, employment agreements, or mortgage documents.

Forms are specific either to federal practice or to the practice of a particular state such as North Carolina. Generic forms can be used for North Carolina transactions, but they may need to be modified to conform to North Carolina law. When using any form, a drafter must be careful that the form reflects the law of the jurisdiction.

I. North Carolina Forms

[Douglas' Forms](#)

Location: Carolinas Reference, KFN 7468 .D68 2005, Lexis: DOUGLS

This five volume set is the best resource for both transactional and procedural forms in North Carolina.
