**Subject:** Economic Development Announcement

Dear Economic Development Committee Member:

### **Charlotte School of Law to Locate in Midtown**

Charlotte School of Law (CharlotteLaw) has leased its first location, a three-story brick building located at 1211 East Morehead Street. The former Alston & Byrd facility is an ideal midtown location providing easy access to downtown, courts, law firms and government offices.

Possessing a rich history in the Charlotte legal community, the building will accommodate faculty and staff offices, class and seminar rooms and teaching space. CharlotteLaw will occupy the building for the next two years while a permanent facility is designed and constructed for anticipated future growth.

CharlotteLaw is part of the InfiLaw consortium of independent community-based law schools working to establish student-centered, ABA credited facilities in underserved markets. Florida Coastal School of Law in Jacksonville (also part of the InfiLaw consortium) ranks number one in both bar passage among first time test takers and career placement of all of Florida's ten law schools.

You may wish to contact following individuals for more information:

Kati Hynes  
Vice president of Economic Development
